China and the Middle East

20

Chinese cities with Baidu robotaxis

- Taxis with no driver in Dubai and Abu Dhabi
- Photo: a robotaxi in Abu Dhabi

And in Europe?

Europe is late, but it is starting

Croatia	First robotaxi service in Zagreb (April 2026)
Netherlands	First country to approve Tesla FSD (level 2)
United Kingdom	Robotaxi tests in London, with a safety driver
France	Only tests for now

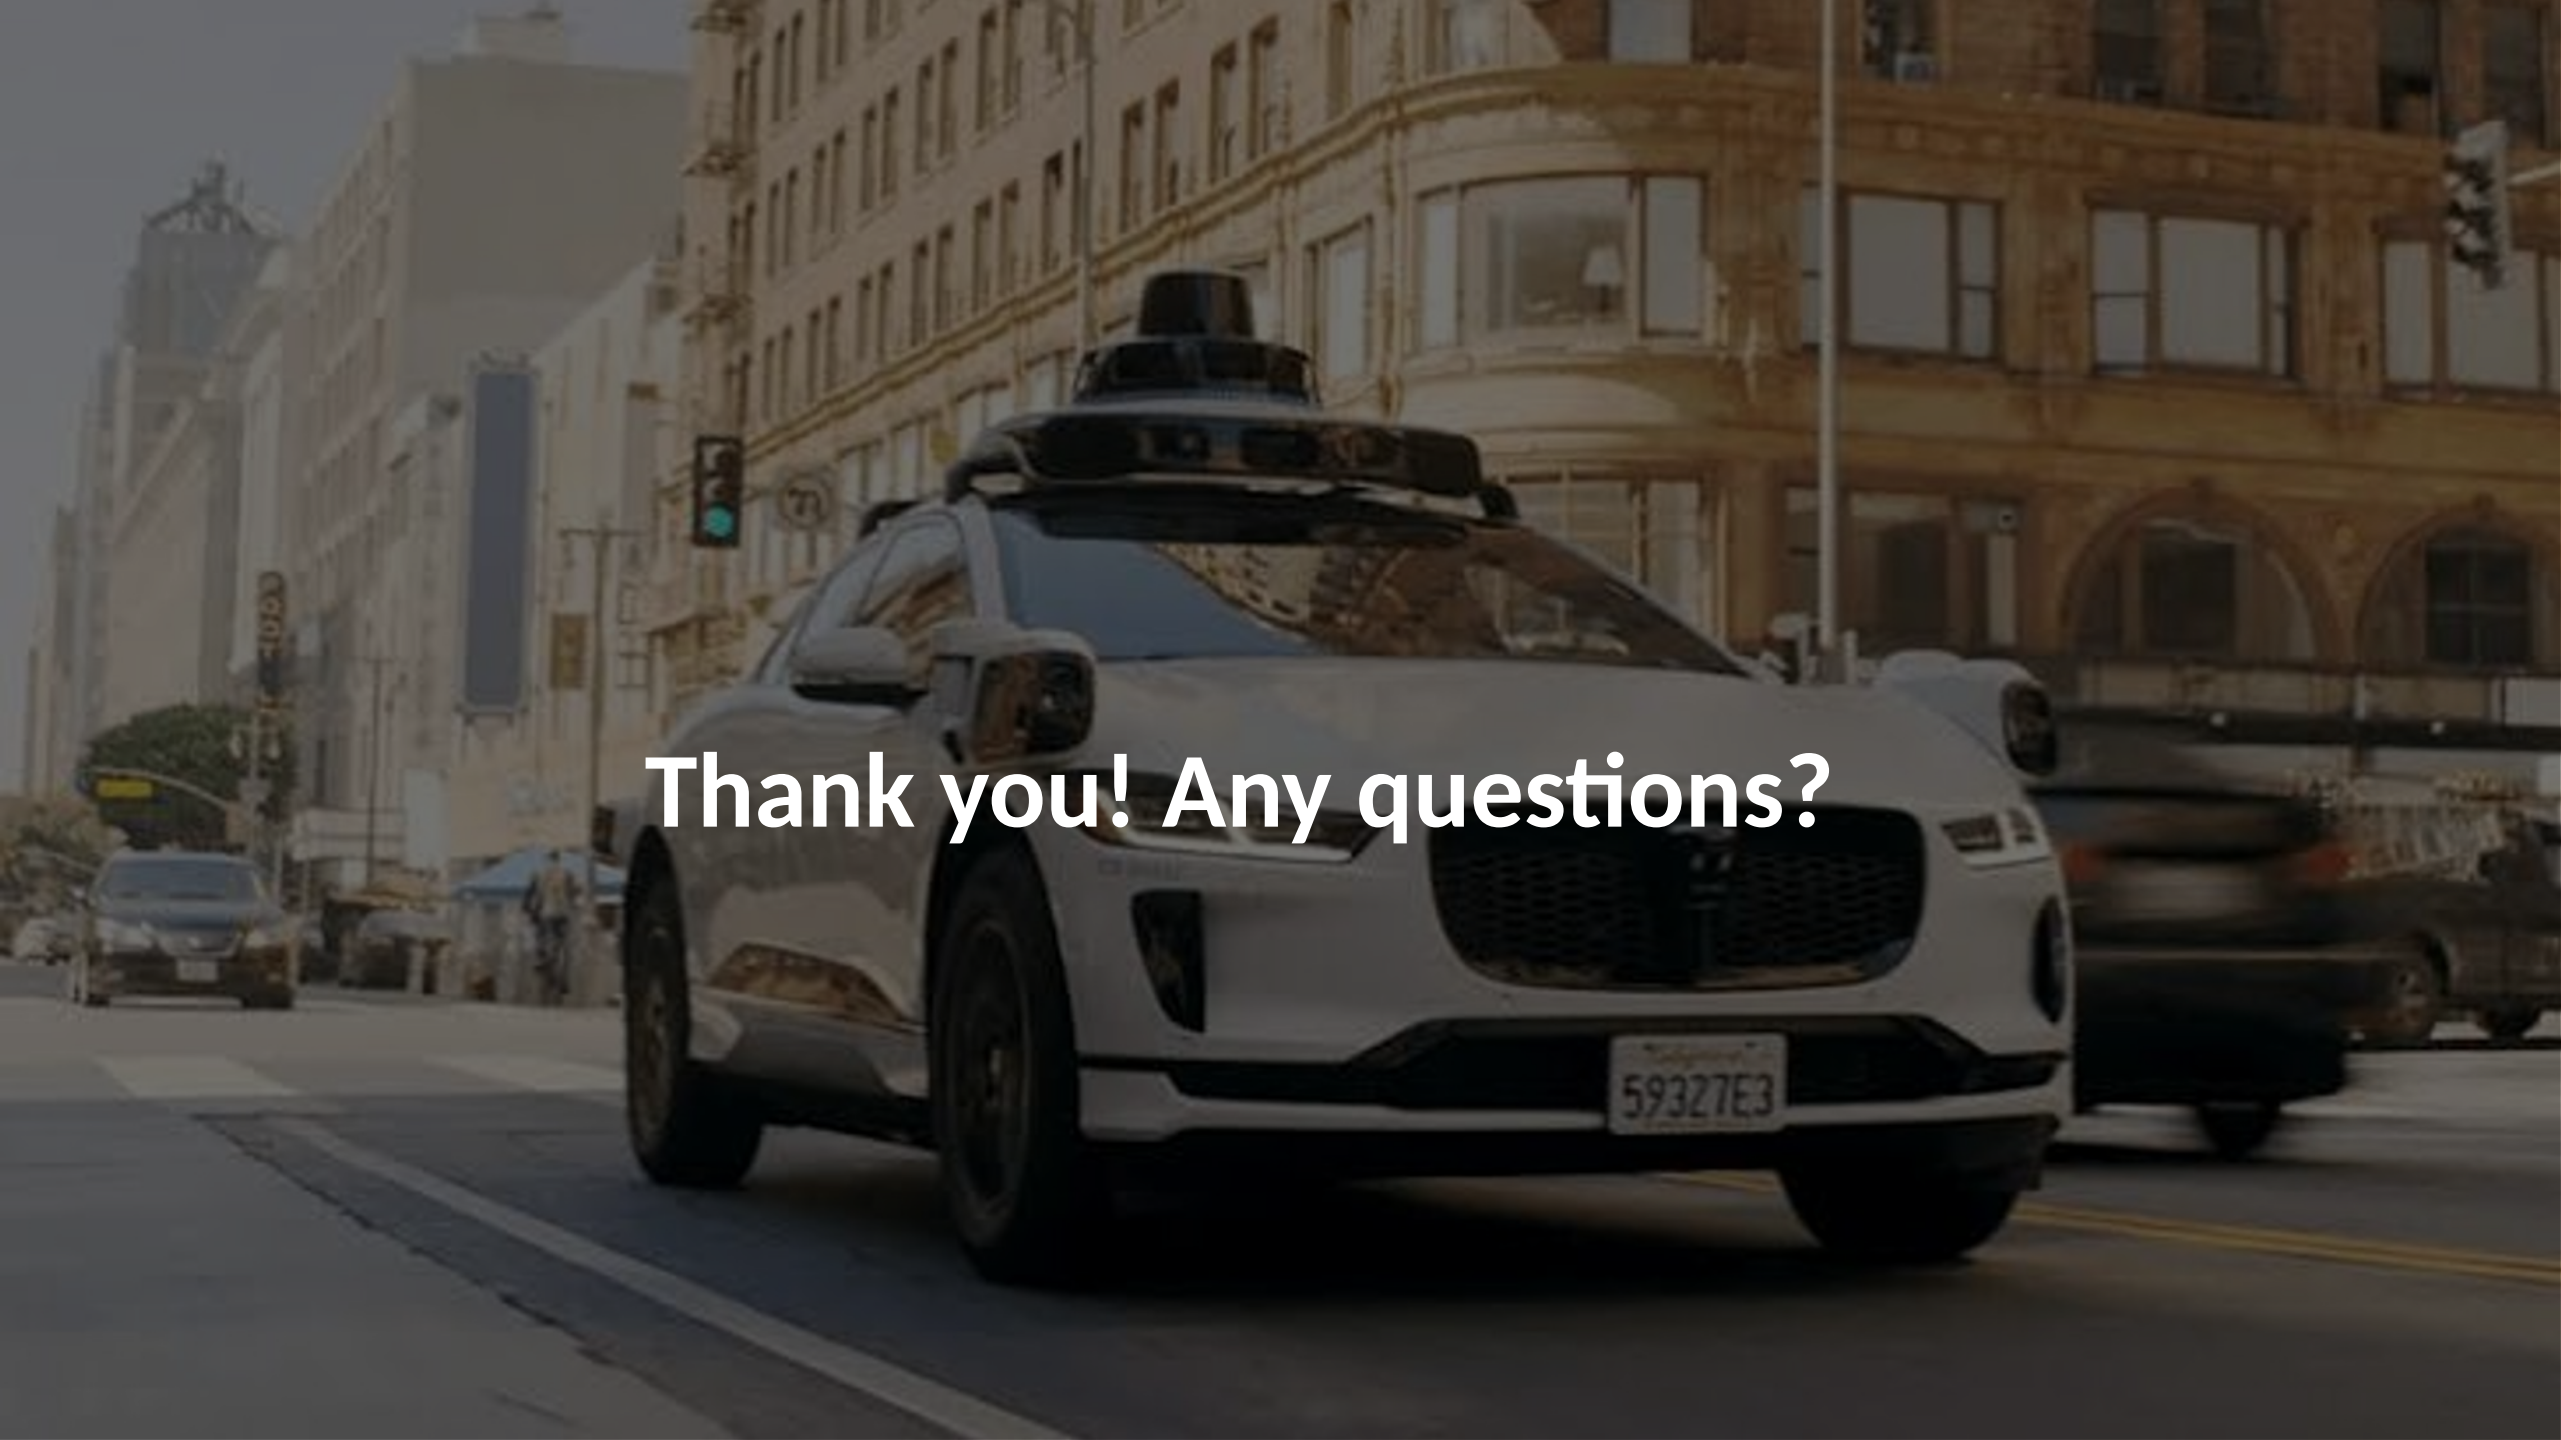

Good or Bad?

Advantages

- Fewer accidents
- Works day and night
- Taxis will be cheape

Problems

- Who is responsible in an accident?
- Snow and rain are difficult
- Taxi drivers can lose their job

Thank you! Any questions?
